

OPTIONAL FORM NO. 10
MAY 1962 EDITION
GSA GEN. REG. NO. 27

5010-106

SECRET

UNITED STATES GOVERNMENT

Memorandum

TO : AD/OEL
CC : [REDACTED] 25X1A
FROM : DAD/S&D 25X1A

DATE: 9 April 1965

SUBJECT: Handling and Safety Handbook for [REDACTED] Power Supply

25X1A

25X1A I talked to [REDACTED] this morning and outlined our need for these documents. [REDACTED] indicated that they are normally delivered along with the Power Supply which is someways down the road. I suggested that a preliminary set of documents be prepared which could be revised upon delivery. We discussed this and believed that this would be a satisfactory solution to the present problem. 25X1A

25X1A I called [REDACTED] this afternoon, who works with [REDACTED] and told him of our decision in this area. As soon as [REDACTED] gets back from a visit to the [REDACTED] will pass the word on to him and they will call you to give you the best date which they can make in getting these initial sets of documents into us. 25X1A

25X1A [REDACTED] was informed on this and can help if things need some more work.
